

Vincent Adeniji

Software Developer

vincent7adeniji@gmail.com | (571) 456-2050 | Woodbridge, VA

Portfolio | [GitHub](#) | [LinkedIn](#)

SKILLS

React | Node | Javascript | Python | SQL | MongoDB | HTML | CSS | Jest

PROJECTS

Sudomega

[Sudomega](#)

An app designed to give users the best virtualization on a Sudoku game

HTML | React | Node | CSS | PostgreSQL

Rebuild the landing page to be easier to navigate

Created gallery functionality using database storage so that users can upload photos of the Sudoku on paper

I played a front-end role in this project and I collaborated with 9 developers.

Sauti Market

[SautiMarket](#)

An app that allows women-led businesses in East Africa to trade products across borders

React | Node | CSS | MongoDB | Express

Rebuilt the entire app from scratch after debugging

Used React Router to link navigation between locations

Used MongoDB to create the CRUD API

I played a front-end role in this project and I collaborated with 7 developers
